

Empower your Leaders!

The biggest challenge for fast-growth companies is developing strong leadership.

Now there is a simple solution!

We understand your dilemma

- Your company's growth is outpacing your ability to grow strong leaders.
- You don't have the time ... or ability ... to get your managers to the next level.
- You've consistently tried to build a leadership team ... and you've not been satisfied with the result.
- Your employees are geographically dispersed and it's very expensive to train them.
- Your answer to most growth challenges is "We don't have anyone to lead that."
- You promote people you think will be good and they don't make the decisions you would make.
- You are not able to focus on the strategic activities you need to do, because you don't have others to help run things.

LeaderSkills is the answer!

- A customizable, intensive leadership course based on the fundamental skills needed to be a great leader.
- Each session is focused on one topic and a few key concepts.
- Each session gives tools to apply those concepts immediately to participants' work situation in real-time.
- Fieldwork assignments help participants practice using these tools and preparing for a facilitated live discussion.
- Videos, reference guides and downloads deliver the core material. Participants watch and read on their own schedule and re-watch to deepen their learning.
- A live small group format is used for deep interactivity
- No travel required. No time away from work.

I really learned a lot about myself and what I need to work on. And I now have those tools to help myself make those changes. Thank you!!
Vice President, HR

To be honest, I didn't want to take this course. I thought it would be just another training. I'm busy and didn't want to bother. Instead I found it to be so valuable that I looked forward to every single module.
